Why? Because with 256 you will be able to create the vector-based icons. Vector-based files are bitmaps with all the advantages and disadvantages of the pixel graphics. And if you create your files in vector format with a program, such as Adobe Illustrator or CorelDraw, you don't have to worry about the quality of their images in Photoshop. You are certain that you will get exactly the images you need. Of course, you can use other graphics editors for vector graphics too - no matter 09e8f5149f
