Open it, and then your software will be activated. Step 9: If you are a certain type of Internet user, then you could enjoy all of the. Q: "edit help" not available for questions in "show close" tabs In "show close" tabs, there is a button that says "edit help". When I click it, I get a simple URL, but it doesn't

lead to a special page for questions that are closed. It seems to go straight to the edit page, which is a bit confusing. A: It's already changed and has for a while, just forgotten to change the help text. The text is changed now, thanks for noticing! [Chemical research of material basis of invasiveness and metastasis of malignant tumor]. In order to study the relationship between chemical composition of malignant tumor and its invasion and metastasis ability, a method based on the correlation analysis of the correlation of cancer biology with chemical composition is established.

A series of methods which can reflect the biological characteristics of malignant cancer including invasion and metastasis are selected as the indicator and its chemical composition including amino acids, nucleic acids, lipids, carbohydrates, as well as mineral composition are measured respectively, so as to identify the correlation between chemical composition and cancer biology. The experimental result shows that: within the same cancer type, the invasive ability of cancer cells is negatively correlated with contents of cell membrane composition and positively correlated with contents of energy metabolism and cell cycle composition (p We use cookies to optimise your experience on our website.
