**Cards will go live on March 5. Kombat card navigator Linkara has created a guide to teach players how to use each of them. Shortly after launch, a list of tekken 7 character bios courtesy of Tekken Game Producer Goro Sakajima will be made available to the public. Limited cardistry that I've been working on for the past year will be ready for Tekken 7. Players will know what character they will end up with going into Tekken 7 based on their current character page select. The character pages will start to take shape in August when we get Goshun's Tekken 4 remake in. Promo card based artwork and general game info will be made available after the character cards roll out. Minor kit based adjustments will take place after the character cards go live for character select and combo decks. First appearing in the Neo Arc in the game, Uncle Creepy, his character design was simple and pleasant to look at. His art is drawn by the in-house artist, Sanada. He is a character that excels in close range fighting in general, and has a great sense of timing and is hardly ever caught flat footed. He was put into two games as DLC, where they are expected to have a more spicy side to**
