Now you

What's New In?

photo☐photos(noun) These are pictures; pictures of anything; pictures. PhotosShow is a professional photo slide show maker with fast and friendly interface. You can create a slideshow with pictures you select from your computer or imported pictures from PhotoShow Gallery. The slideshow can be shown on computer screen and viewed on TV via Internet with the help of PhotoShow embedded plug-in. You can also make web videos by adding PhotoShow tools to your SlideShow with your existing videos. Also, you can generate HTML/Flash/AVI/Windows Media/QuickTime/Mobile screen savers with multiple settings. You can make your own photo slideshow with pictures you can select from photos you have, photos you have taken with camera and pictures you have imported from PhotoShow Gallery. You can select pictures for your slideshow by batch processing with one click. You can add video clips to your slideshow by converting them from AVI to MP3, audio, OGG, or MOV. This application supports many audio formats for slideshow background music; you can select your favorite music from audio library or import your own music. You can add photo effects including: watermark, frame, flip, blur and many other effects to your slideshow. You can edit your slideshow in the full layout by using the Photoshop-like tool to adjust layers and erase the selected areas or remove it. You can insert a picture or a video or a web link into a specific position on your slideshow. You can also add a text into a slideshow to display your text. You can also save your slideshow to PhotoShow Gallery or various online photo sharing sites. There are also some other features including browse existing slideshow in PhotoShow Gallery, unlock your slideshow and hide other images. You can also compress, uncompress and convert your slideshow from AVI to MOV/MP4/H.264/Divx/WMV/MPEG4/TS/Tivo/XviD/RM/RMVB/ASF/Flash. And there are lots of other features included in this slideshow maker. [Features] 1. * Set background music for your slideshow. * Set photo for your slideshow. * Set video for your slideshow. * Import and export picasa. * Import and export photos from gallery. * Batch process photos for slideshow. * Save photos to gallery and gallery to photos. * Export photos to smartphone, mobile and iPad. * Import slideshow from Gallery. * Compress / decompress
