For more information, see academic solutions company uk Ratings: Can someone help me to solve it? when i upload the file in the server it gives the file the Error page: .php?title=APC and Directory configuration APC.php settings.php wampmanager_maintenance.php This is the error page You can download the HTML file to your computer and then copy it to your web server (the file to be uploaded) using PHP's scp feature or any other method you like. To save a video on your server you can use the php Image Convenience function (If you run into a problem, comment and I'll try to help. I think you will need to look at your apc.conf and php.ini for the error messages. You may also want to take a look at the main php pages for the WAMP setup (and I think it would be best to check the php conf files first to see if there are any problems with the apc conf etc. You can download the HTML file to your computer and then copy it to

your web server (the file to be 6d1f23a050)
