in 2018, north korea fired a series of intercontinental ballistic missiles, the first time since 2017, triggering the imposition of sanctions by the united nations security council. these sanctions prohibited north korea from exporting coal, iron, iron ore, lead, lead ore, and seafood. in addition, countries were prohibited from importing iron, iron ore, lead, lead ore, and seafood. such restrictions severely restricted north korea's ability to export its raw materials. but they had the unintended effect of increasing prices for those

exports, leading to overall price declines, and a further decrease in the gross domestic product. the city of boston has a population of 598,717 people and a land area of about 48.3 square miles. the city of boston is about 26 miles from downtown boston. the boston public library has eight branches, including the john f. kennedy presidential library. the boston public library is one of the world's most visited libraries and holds more than 16 million items. the boston public library holds the world's second largest online collection of free ebooks. the boston public library is the

largest public library in new england. the past week has been a test of strength between the united states and iran. on thursday, all 450,000 iranians registered for the day-long voluntary absentee voting process will begin. this election, unlike others, is not a vote for the ruling clerics, but rather a vote for rouhani, the supreme leader, and a vote for rouhani's moderate platform. the incumbent is heavily favored to win based on his experience in office since 2013. rouhani has brought the country's foreign policy back toward the west and has improved relations with the u.s. and other countries.
